

4th Congress of Pathologists of Bosnia and Herzegovina with International Participation

14th - 16th November 2024.

Tuzla, Bosnia and Herzegovina

SECOND ANNOUNCEMENT

DEAR COLLEAGUES,

It is my great honor and pleasure to invite you to the 4th Congress of Pathologists of Bosnia and Herzegovina with International Participation that will be held on 14 - 16.11.2024. in Tuzla.

Tuzla is the industrial, university and health center of the most populated canton and the second largest city in the Federation of Bosnia and Herzegovina, with its long tradition in health and education and 60 years of organized work in the field of pathology.

Famous local and invited lecturers from other countries will present contemporary knowledge in the fields of hepatology, pulmonary, urogenital, gynecological, gastrointestinal and neuropathology. The scientific and professional program includes plenary sessions, lectures by invited lecturers, younger colleagues' presentation, and satellite symposia dedicated to current diagnostic tests relevant to the choice of appropriate treatment.

The process of diagnosis and successful treatment is not conceivable without a multidisciplinary approach, therefore this congress is an excellent opportunity to join colleagues from other areas of medicine that are close to or associated with pathology.

In addition to presenting the current topics of invited lecturers, your presentations will be an opportunity for discussion, exchange of views and experiences with domestic and international experts, which will certainly contribute to building professional excellence.

Informal and friendly gatherings with a well-known hospitality in our city will complement the overall experience.

We look forward to your arrival with the hope that you take away pleasant memories, valuable experiences, new friendships and for Tuzla to stay in your heart.

Chairwoman of the Organizing Committee KPBIH 2024.
Doc.dr. Azra Sadiković
